

Wenger

Terrain Crossing Collection

The new Terrain Crossing collection integrates Wenger's unique knowledge of the global trekker's requirements for adventure travel gear with a sleek and sophisticated design that sets a new standard for design and functionality. Key features of the three rolling bags from the collection include rugged outboard wheels, telescopic locking pull handle, multiple carry handles and removable interior zippered toiletry pocket. The two duffels feature a separate compartment for shoes, boots, soiled wet clothing, an interior accessory pocket and adjustable strap.

Ueli Steck Special Edition Swiss Army Knife

Multi-functional tool built for climbers, hikers, backcountry skiers and any outdoor activity, this innovative Wenger knife was developed with and used by professional mountaineer and speed climber Ueli Steck. As unique as the Titanium handles, the one-hand opening and locking blade is 50% thicker than standard blades and is equipped with an amazing 6 functions including 3 hex keys, large flat screwdriver and two cutting options (serrated and straight).

X-Kross Sports Glasses

Wenger X-Kross Sports Glasses have been developed for all active people who require special protection for their eyes while ensuring optimum clarity when enjoying various types of outdoor and sports activities. Wenger Sports Glasses are a vital piece of equipment - not an accessory and no matter what the sport or activity, they will help to improve performance. While running, biking, on water or snow, the revolutionary ACM system (Air Circulation Management) provides a perspiration, humidity and fog-free view allowing the athlete to focus clearly on the finish line.

Squadron

The Squadron is a timepiece dedicated to the Search & Rescue squadron pilots worldwide who rely on accurate and legible time-keeping, dead-reckoning navigation as well as a host of other related time keeping factors of importance. This watch is available in two technical executions, Chronograph and GMT, which are fitted with unidirectional rotating bezels. Each Squadron features a sapphire crystal, 316L stainless steel case, silicon strap or stainless steel bracelet.

Drinking Bottles

Wenger is expanding its Drinking Bottle Collection with new Sports Bottles, available in fall 2011. 100% recyclable, BPA-free and manufactured from 99.5% pure (virgin) aluminum Wenger Drinking Bottles set a new standard in design, functionality, quality, safety and environmentally friendly manufacturing process. The new Wenger Sports Bottles feature a unique design in four attractive colors. Their ergonomic shape with Grip-Dip guarantees a secure grip at all times. Along with Wenger's wide mouth design, the Sports Bottles feature a multifunctional Sport Top which opens and closes efficiently with only a quarter-turn, and easily disassembles for cleaning.
